

Billy Connolly - Welly Boot Song (Guitar Chords)

Chorus -----

          G                  D          C                  D  
If it wasn't for your wellies where would you be  
G                                  C          D  
You'd be in the hospital or infirmary  
G  C          G  
'Cause you would have a dose of the flu or even pleurisy  
G  D          G  
If you didn't have your feet in your wellies

End Chorus -----

verse 1:

          G                                  C                                  G  
Oh wellies they are wonderful, oh wellies they are swell  
G  C                                  G  
'Cause they keep out the water and they keep in the smell  
G  C                                  G  
And when you're sitting in a room you can always tell  
G  D          G  
When some bugger takes off his wellies

Chorus:

verse 2:

          G                                  C                                  G  
Oh and when you're out walking in the country with a bird  
          G                                  C                                  G  
And you're strolling over fields just like a farmer's herd  
          G                                  C                                  G  
And somebody shouts, "Keep off the grass" and you think how absurd  
          G                                  C          G  
and SQUELCH you find why farmers all wear wellies

Chorus:

verse 3:

          G                                  C                                  G  
There's fishermen and firemen, there's farmers and all  
          G                                  C                                  G  
Men out digging ditches and working in the snow  
          G                                  C                                  G  
This country it would grind to a halt and not a thing would grow  
          G                                  C          G  
If it wasn't for the workers in their wellies

Chorus:

verse 4:

Oh Edward Heath and Wilson they haven't made a hit  
They're ruining this country more than just a bit  
If they keep on the way they're going we'll all be in the (shhhhh)  
So you'd better get your feet in your well - ies

Chorus:

G	D	C
		o
o	o   o	o
o       o o	o	o
